

**Classification: Junior College**

**Effectiveness Rating**

When you first go on to the main page you are struck with what Should you do next and just stare like a zoo. There is a lot happening. Overall Experience ★★★★★

Two slide shows one in the main content and one in the navigation which Strikes as overkill. There are also far too many colours going on , we have reds blues yellows purple all distracting the viewer from their mission. The Functionality/Ease of use ★★

left nav is fine but the 4 column navs below the slideshow and main navigation are a bit ridiculous. One of the columns looks like coupons you get out of free newspaper for cars. I do like the logo and the top nav but it just seems to me like a page with a lot of navs round a slideshow. The information needs to be organized better Look & Feel ★

Worst = ★

Best = ★★★★★
