

# Junior College Competitive Analysis.

www.brevard.cc.fl.us

## Classification - Out of state Junior Colleges

I really find the website to have a great navigation. It's streamline navigation is an either one or the other type of journey. you can get right to where you want to be pretty fast. The design layout was never a detraction, none at all. Cool color scheme with tinted blues and greens to highlight key and common searched areas. I found with just minimal brain powe you can guide yourself right to where you want to be whether the visitor is a prospect student or returning to school
