

Classification: Junior College (online)

Effectiveness Rating

It has a very professional look to it. It's very corporate and clean and has a calming effect due to the color palette, which is white, gray, dark blue, light blue, and black for the text. The home page captures your attention w/ a couple of red and yellow graphic buttons. Easy to navigate and there are videos on all the main subpages, which provides for personal experience. Everything's easy to find with no hidden menus like the SMC site.
